  - Information Technology
  - Software Engineering

**OWN YOUR  
READY**

The **RMIT Careers Festival** is our flagship annual career event by the Careers, Alumni & Industry Relations team, designed to equip students with the skills, insights, and connections to thrive in today's evolving world of work.

In 2026, the theme "Own Your Ready" focuses on practical readiness, understanding industry expectations while building the skills, mindset, and confidence to succeed in real professional environments.

Highlights include:

- **Build career confidence:** Learn how to navigate today's job market, understand industry expectations, and take practical steps toward goals.
- **Explore employability opportunities:** Connect directly with companies and discover various career pathways.
- **Stand out as career-ready talent:** Showcase your strengths to employers who are actively looking for well-prepared candidates.
- **Expand the professional network:** Engage with leading organizations and build connections that support your long-term career journey.

Careers Festival 2026 is built on the belief that career readiness is not a fixed destination, but a journey students can actively shape. The concept empowers students to take ownership of their future by recognising that “being ready” is something they can define, build, and grow over time. Through meaningful experiences and real-world insights, the festival encourages students to develop readiness in a way that aligns with their individual aspirations and strengths.

“Own Your Ready” captures this mindset by inviting students to take ownership of their preparation and progress. Every student’s journey looks different, shaped by individual goals, timelines, and strengths.

Together, Careers Festival 2026 communicates both empowerment and flexibility, positioning the university as a supportive partner that provides guidance, opportunities, and real-world exposure while allowing students to define what readiness truly means for students.

**Knowledge with Action – RMIT’s Strategy to 2031**

In a world of diminishing resources, RMIT aims to be a leader in sustainability. This commitment extends beyond providing sustainability education and research; it includes leading by example in University operations

As part of the Event Guideline, the following Sustainable Guideline applies to participating companies, students, and staff to create successful Careers Festival 2026 that foster a strong sense of community, while also minimizing negative impacts on the environment.

Your support by following our Sustainable Guidelines will play a crucial role in lasting this culture among the young and soon-to-be practitioners!

**Do**

01 standee

Laptops, iPads

Digitalize promotion materials

Distribute sustainable merchandise

Bring your own bottle and refill at our provided water stations.

**Don't**
